Section 4: Special Rules

1260 RACE POINTS AND PENALTY CALCULATION

1260.1 Race Points Calculation:

The race points will be calculated according to the FIS alpine formula.

P = Race points of athlete x

$$P = \left(\frac{T_x}{T_o} - 1 \right) * F$$

T_x = Calculated Time of competitor x in seconds

T_o = Calculated Time of the overall gender winner in seconds

F = Discipline factor (See 1582)

1260.2 Race Penalty Calculation:

The IPCAS – Race Penalty Calculation will be calculated in accordance with the current Rules of FIS Race Points penalty calculation, applying IPCAS parameters.

1261 IPCAS POINTS CALCULATION

1261.1 Publication

IPCAS STC will publish the IPCAS-Points Lists according to a timeline defined by October of the competition year. Note that the published points list for July, August and September will include athletes who had a valid licence in the previous competition year.

The IPCAS Points List is available under www.ipc-alpineskiing.org

1261.2 Calculation

The average of a competitor's best two results in each discipline during the validity period will be used for the calculation of the IPCAS points. (The validity period is 15 months).

1261.3 Points Penalty Values

- Single Penalty 44%
- Range of penalty applied:
Minimum 10 and maximum 50 points (for all disciplines)
- Double Penalty 88%
- Range of penalty applied:
Minimum 20 and maximum 100 points (for all disciplines)

1261.3.1 Athletes with One Result

If in the validity period, there is only one result for a given discipline, a single penalty will be applied to the single result in that discipline.

1261.3.2 Athletes with No Result

If in the validity period, there are no available results for a given discipline, a double penalty will be applied to the last available IPCAS points' value in that discipline.

This will be applied only to IPCAS points between 15 and 24 months back. Points beyond 24 months will be discarded.

1261.4 Injury Status (IS, PO, SB):

If an Athlete requests Injury Status (IS), Professional Obligation (PO) or Study Break (SB) through their NPC using the official IPC Form, they must maintain a valid Licence throughout the status period. An athlete may only use one status at a time.

The application for IS, PO or SB status is valid for one year. After this, the NPC must apply for additional status to the IPCAS STC. If no notice is received, the status will be deleted.

A period of 3 months without competing is required to maintain the IS, PO, SB status

- After four (4) starts in a given discipline after the date of reception of the status, the status will be deleted in all disciplines.

- After the third (3rd) month from the 2nd start in the same discipline the injury status will be deleted in all disciplines.

In the event the athlete is still under IS upon return he/she achieves two results in a given discipline with a better average than the frozen IPCAS that average will be used to calculate his/her IPCAS points.

Penalty Calculation – Time period of IS:

The penalty is calculated by using the athlete's points from the valid IPCAS-Points List at the time athlete starts their IS. The penalty is then calculated using the following criteria.

IPCAS-PL:

From the first day of IS until the end of the present competition year the IPCAS-Points will remain unchanged. For each subsequent competition year a single penalty will be added to the last valid IS points provided the athlete's Licence has been renewed.

1270 Participation in IPC Competitions

The STC Committee will review and publish the participation criteria at IPC competitions at the beginning of the competition year.

- 1270.1 A hosting nation of a World Cup/Level 1 COC may apply one (1) month before the race to the IPC Alpine Skiing STC for a maximum of 6 wildcards in technical events (Slalom and Giant Slalom).

1302.1.1 Changing guides

During competition in the event of a guide's injury or illness an athlete is permitted to change his/her guide with the approval of the jury.

In all other circumstances an athlete must make a written request in advance to the STC AS explaining their reasons for changing guides.

1302.2 For all B-classes the use of a guide is obligatory.

1302.3 For reasons of safety guides must dispose of a suitable vision. The visual field must be within normal limits and the visual acuity in one eye at least 0,5 and in the other eye at least 0,2 (with best correction). The NPC's are responsible to guarantee the guides' visual eligibility.

1302.4 Guidance must be by voice and/or radio communication. Voice amplification between guide and competitor is accepted. No other means of communication is allowed during alpine races.

1302.5 No physical contact between the guide and competitor is allowed during the race.

1302.6 All competitors in class B1 must wear blacked-out goggles during the competition. The model of the blacked-out goggles is optional, but they can be tested and passed by the jury.

1302.7 VI athletes will be permitted to start course inspection ten minutes prior to other athletes.

1302.8 Competitors and their guides are permitted to sideslip or snow plough at low speed, through the gates but never more than 3 consecutive gates, during the official inspection, if approved by the jury.

1302.9 In a case that a Guide is sanctioned, the same provision governing athlete sanctioning apply.

1303 Guides

1303.1 All guides must guide VI athletes from in front. An exception can occur only between the last gate and the finish line, where the athlete can overtake the guide.

1303.2 The distance between guide and athlete in technical events (Slalom and Giant Slalom) must not exceed two direction changes and in speed events (Downhill and Super-G) must not exceed one direction change. Failure to satisfy this definition of the team will lead to disqualification.

1303.3 The guide must pass through all gates.

1303.4 All guides must wear the supplied competition bibs.

The guide bibs must meet the following specifications:

- Have a clearly visible "G" in front and the IPC Alpine Skiing on both shoulder fronts.
- The back of the bib may be a different colour to accommodate the needs of the visually impaired competitor.
- Bibs will be individually numbered for identification.

If a guide bib is lost or damaged, the IPC Alpine Skiing STC will charge the competitor a fee of 100 Euros.

1304 Microphones

Public address systems, snow machines or other noise must be kept to a minimum at the start, finish and on the entire race course for all visually impaired competitors.

1305 Course Preparation

The course crew must be trained to prepare the course for the alpine skiing for athletes with disability in order to avoid race interruption. In Slalom, the course on all sides of the turning pole must be kept clear of snow build-up to allow for the stabilizers.
